MILITARY SPECIFICATION

AIRCRAFT AND MISSILE SYSTEM PECULIAR STORAGE MANUALS

This specification is approved for use by all departments and agencies of the Department of Defense.

1. SCOPE

1.1 This specification covers the requirements for preparation of technical manuals of instructions for aircraft and missile systems. The manuals covered by this specification provide instructions and guidance on storage to personnel in the organizational, intermediate, and depot levels. Preparation and shipment of new aircraft or missiles before they are secured by a using organization will not be covered. Spare parts, except when stored as part of the system, will not be covered.

2. APPLICABLE DOCUMENTS

2.1 The following documents of the issue in effect on date of invitations for bids, or request for proposal, form a part of the specification to the extent specified herein.

SPECIFICATION

Military

MIL-M-38784	Manuals, Technical: General Requirement for Preparation of
MIL-P-38790	Printing Production of Technical Manuals: General Requirements for

PUBLICATIONS

Technical Order 1-1-17	Storage of Weapons

3. REQUIREMENTS

3.1 Preparation. The general manner of preparation of the manuals shall be in accordance with MIL-M-38784 and MIL-P-38790.

3.2. Contents. The manual shall contain information required by maintenance personnel for storage, inspection during storage, and removal from storage of individual aircraft or missile systems. It will not contain procedures adequately covered in Technical Order 1-1-17.

Source: https://assist.dla.mil -- Downloaded: 2026-10-21T15:32Z
Check the source to verify that this is the current version before use.

3.2.1 The Title Page, List of Effective Pages, Table of Contents, List of Illustrations, and List of Tables, shall be prepared in accordance with the requirements of MIL-M-38784.

3.2.2 The introduction shall contain an explanation of the purpose of the manual and a reference to TO 1-1-17 as a source of further general information on storage. It shall include any relevant information that will be of assistance in use of the manual. A brief description of the information contained in the manual shall be given.

3.2.3 When storage procedures covered in TO 1-1-17 are sufficient for the applicable system, it shall be so stated by reference in the appropriate section(s) of the system peculiar storage manual. If the information in TO 1-1-17 is not sufficient, the system peculiar storage manual shall contain the necessary information to augment TO 1-1-17.

3.2.4 The individual system storage manual shall include instructions for processing systems for (1) temporary storage, (2) extended storage (over 90 days), (3) Inspections and treatments during storage, (4) removal from storage, and (5) if required, procedures for moving or flying system to an overhaul/maint facility. These instructions will be listed in the order in which the work can be most logically accomplished.

3.2.5 The arrangement of the manual will be similar to the following:

SECTION I Introduction

1. Purpose
2. Types of Storage
3. General Instructions

SECTION II Temporary Storage

1. Preparation and Securing
2. Inspection and Treatment during Storage
3. Removal.

SECTION III Extended Storage

1. Preparation and Securing
2. Inspection and Treatment during Storage
3. Removal
4. Moving or Flying System to Another Location

3.2.6 The section on extended storage will contain a diagram of the exterior, as illustrated in Fig. 1, or instructions which give the following:

a. Openings which must be sealed to prevent entry of rain and dust.

b. Location of vent tubes or drain holes to insure all areas of the system are vented.

c. Location of acrylic windows which need protection from sunlight.

Source: https://assist.dla.mil -- Downloaded: 2026-10-21T15:32Z
Check the source to verify that this is the current version before use.

d. Tie-down points and strength of cables needed to secure system during extended exterior storage.

e. General locations of unpainted metal surfaces which need protection during extended storage.

f. Location of fuselage drain plugs on amphibious aircraft will be shown or referenced

g. The type preservative or protection required.

3.2.7 Any other procedure necessary to protect the system during extended storage will be included.

3.2.8 The section on temporary storage will include (or refer to another technical order) the location or protective covers and tie-down points. Any other procedures necessary to protect the system during temporary storage shall be given.

3.2.9 Designs or part numbers with sources for material or equipment needed to process the system shall be given . This should include stands needed to store components in or near a system.

4. QUALITY ASSURANCE PROVISIONS

4.1 The quality assurance provisions of MIL-M-38784 and MIL-P-38790 are applicable.

5. PREPARATION FOR DELIVERY

5.1 Packaging, packing, and marking for shipment shall be in accordance with MIL-M-38784 and MIL-P-38790.

6. NOTES

6.1 Intended use. The technical manuals covered by this specification are intended to supplement TO 1-1-17 on storage of aircraft and missiles.

6.2 Manuals published by the Air Force in accordance with this specification will be published as weapon system -17 technical orders.

6.3 Definitions.

6.3.1 System peculiar - Applies to one and only one aircraft system or missile system, but may include all series of that system.

LOCATION LEGEND

1. Fuel Loader: Tape end (T) and cover with corrosion preventive compound GR 1.
2. Pitot tube - ground support equipment.
3. Radome (SW & S).
4. Scoop (B, T, & S).
5. Air Temp Guage - Tape and do not spray.
6. Static Part (L & R) Install Bleeder - MASDC dwg #1-0042 (T &S).
7. Scoop (CM).
8. Door, seal upper half (T & S).
9. Engine Seams (L & R) Tape and seal all seams on upper half of engine.
10. Canopy: Install vent tube in top of canopy, MASDC Dwg #3-0004 (T, P&S)
11. Nose Seam (T & S).
12. Vents (B, T, & S).
13. Hole (B,T, & S).
14. Tail and Wing lights (P & S).
15. Engine holes (CM).
16. Engine exhaust holes (B, T & S).
17. Holes to Bombbay from wheel wells (B, T & S).
18. (SW & S) Leading edge (right side only).
19. Speed Brakes (T & S) upper half only.
20. Tail hook (B T & S).
21. Spray leading edge and top of tail (SW & S).
22. Fuel vents (4) (L & R) Install vent MASDC Dwg #1-0047 (T & S).
23. Bombbay - insure bombbay doors are closed.
24. Engine intakes (L & R) Install dessicant. Install a humidity indicator in center of F_1 both intakes (F_1, T & S).
25. Engine exhaust (L & R) Install dessicant. Install a humidity indicator in center of F_1 both exhausts (F_1, T & S).
26. Leading edge wing seams (6 places) (L & R): (T & S).

PRESERVATION CODE LEGEND

B - Barrier Material (MIL-B-131)

P - Plastic Polish (Federal Spec. P-P-560)

SW - Waterproof Wax (MIL-W-18723)

T - Tape (E.O. 45-69, 10 April 1970) (MIL-T-20095/43115)

S - Coating, Sprayable - Strippable Compound (MIL-C-6799, Type II, Class 1 & 5. Application will be in accordance with T.O. 1-1-686, Section VIII, Par 8-3 thru 8-4 and E.O. 74-41 dated 25 March 1971.

C - Caulking Compound (MIL-C-23760B)

CP - Corrosion Preventive Compound, MIL-C-16173, Grade 1, 3, 3 or 4. (Grade to be specified on Sealing Diagram)

CM - Cushioning Material (PPP-C-1120, Type III, Class A).

F_1 - Fiberboard (PPP-F-320, Type S F V3S).

F_2 - Plywood (Marine Grade) of Masonite (Tempered).

F_3 - Fiberglass Cloth (MIL-C-9084).

SPECIFICATION ANALYSIS SHEET

Form Approved
Budget Bureau No. 22-R255

INSTRUCTIONS: This sheet is to be filled out by personnel, either Government or contractor, involved in the use of the specification in procurement of products for ultimate use by the Department of Defense. This sheet is provided for obtaining information on the use of this specification which will insure that suitable products can be procured with a minimum amount of delay and at the least cost. Comments and the return of this form will be appreciated. Fold on lines on reverse side, staple in corner, and send to preparing activity. Comments and suggestions submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or serve to amend contractual requirements.
