MILITARY SPECIFICATION

FILTER-SEPARATORS, LIQUID FUEL FFU-18/E AND FFU-24/E

This amendment forms a part of Military Specification MIL-F-83243A (USAF) dated 13 March 1973 and is approved for use by the Department of the Air Force and is available for use by all departments and agencies of the Department of Defense.

PAGE 1

2.1, under Specifications, Military: Opposite "MIL-P-116", the title should read, "Preservation-Packaging, Methods Of".

PAGE 2

2.1 Standards, Military: Delete "MIL-STD-100" and substitute "DOD-STD-100".

PAGE 3

Add new paragraph:

"3.5 Reclaimed Materials. Recycled and recovered raw materials shall be used to the maximum extent possible in lieu of virgin raw materials as long as these materials do not jeopardize the intended use and fully comply with all contract requirements. Materials used shall be free from defects which would adversely affect the performance or maintainability of individual components or the overall assembly. Materials not specified herein shall be of the same quality used for the intended purpose in commercial practice. None of the above shall be interpreted to mean that the use of used or rebuilt products will be allowed"

PAGE 6

3.7.1, Line 3, Third sentence: Delete and substitute: "The housing shall be designed with 21 elements in accordance with MIL-F-52308 and 21 canisters in accordance with Figure 3 for the FFU-18/E and 20 elements in accordance with MIL-F-52308 and 20 canisters in accordance with Figure 3 for FFU-24/E."

3.7.1.3, Line 4: Add the preceding third sentence: "The outlet for the FFU-24/E shall have a baffle plate over hole on inside to prevent direct flow away from the elements."
