Check the source to verify that this is the current version before use.

The surgical operating gown shall be full length with a generous overlapping back closed by one set of tie tapes at the neck and by an all-around waist belt attached to a rectangular reinforcement patch at the front of the gown. The gown shall have a stand-up military type collar and full length raglan sleeves terminating in knitted wristlets. The gown may contain an additional set of tie tapes on the left back opening hem and on the right side seam approximately at waist level. As an alternate, the gown may contain a tunnel belt in lieu of an attached belt and a front yoke approximately two inches wide. The tie tapes may be fabricated from cotton or polyester dyed or undyed for the green gown. The gowns shall have color coded size labels.

Construction.

Stitches, Seams, and Stitching. The gowns shall be assembled using seam type SSA-2 with stitch type 515 (safety stitch), or seam type LSC-2 with stitch type 301 (lapped seam).

The gowns shall be fabricated from a colorfast jade green or bleached cotton sheeting as applicable, having the minimum properties:

CHARACTERISTICS	REQUIREMENTS
Yarns/Inch:	
Wrap	52
Filling	45
Strength grab method:	
Wrap	60
Filling	47
Ounces/square yard	4.8

For jade green gowns the color of the knitted wristlets shall approximate the shade of the gown.

The cloth shall not shrink more than 2 percent in either the warp or filling direction. An individual sample unit shall be acceptable up to 2.5 percent. However, a failure shall be reported if the lot average exceeds 2.0 percent.

As an alternate the gown may be fabricated from cloth, jean, cotton, class 1 or 2 as applicable. The requirements are as follows:

Source: https://assist.dla.mil -- Downloaded: 2026-10-26T09:19Z
Check the source to verify that this is the current version before use.

1. Classification. The cloth shall be of the following classes.

Class 1 - Bleached.
Class 2 - Dyed.

2. Yarn. The yarn shall be made from cotton which has been carded, drawn and spun into single yarns.

3. Color.

Dyed cloth. The color shall be bleached white or dyed grayish green 180, (Misty Green).

4. Physical requirements. The finished cloth shall conform to the following requirements:

	Weight per square yard (minimum)	Yards per inch (minimum)		Breaking strength (minimum) (pounds)		
Class	Ounces	Warp	Filling	Warp	Filling	weave
1	4.7	98	60	80	48	2 1 twill
2	4.5	98	60	80	48	

5. Shrinkage. The cloth shall be preshrunk and the residual shrinkage shall not exceed 1.0 percent in either the direction of the warp or of the filling.

6. Seam efficiency. The finished cloth shall have a seam efficiency of no less than 85 percent.

The gown shall contain color coded size labels. For all gown sizes, the marking on the labels shall be colored black. The color of the label for particular gown sizes shall be as follows:

COLOR OF LABEL	GOWN SIZE
Yellow	Small
Tan	Medium
White	Large
Pink	Extra Large

Check the source to verify that this is the current version before use.

As an alternate to the color coded size labels the gowns may contain a white label with black marking and a color coded hanger. The color scheme of the hanger shall be 1-1/2 inch plus or minus 1/4 inch long and 1/2 inch plus or minus 1/8 inch wide. The hanger shall be sewn next to the label.

Workmanship. The operating gown shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Package (PG). One package of twelve gowns of one size and color only, as specified, constitutes one unit.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or purchase order, the contractor may use his own or any facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Records. Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after delivery of the supplies to which such records relate.

Inspection. Inspection, as used herein, is defined as both examination (such as visual or auditory investigation without the use of special laboratory appliances or procedures) and testing (determination by technical means of physical and chemical properties) of the item.

Tests. Tests shall be conducted to determine compliance with specification requirements. Where feasible, the same sample shall be used for the determination of two or more test characteristics.

Check the source to verify that this is the current version before use.

Sampling for tests. Sampling for tests (dimensional) shall be conducted in accordance with MIL-STD-105, with an AQL of 4.0 (percent defective) and inspection level of S-2. The unit of product for test purposes shall be one surgical operating gown.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580, as amended, and as implemented by Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

INSTRUCTIONS. In a continuing effort to make our standardization documents better, the DoD provides this form for use in submitting comments and suggestions for improvements. All users of military standardization documents are invited to provide suggestions. This form may be detached, folded along the lines indicated, taped along the loose edge *(DO NOT STAPLE)*, and mailed. In block 5, be as specific as possible about particular problem areas such as wording which required interpretation, was too rigid, restrictive, loose, ambiguous, or was incompatible, and give proposed wording changes which would alleviate the problems. Enter in block 6 any remarks not related to a specific paragraph of the document. If block 7 is filled out, an acknowledgement will be mailed to you within 30 days to let you know that your comments were received and are being considered.

NOTE This form may not be used to request copies of documents, nor to request waivers, deviations, or clarification of specification requirements on current contracts. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or to amend contractual requirements.
