COMMERCIAL ITEM DESCRIPTION

SUPPORT, ANKLE

(Elastic)

The General Services Administration has authorized the use of this Commercial Item Description.

This Commercial Item Description covers the requirements for three sizes of an elastic ankle support.

Salient characteristics:

The ankle support shall be a cotton knit, elastic, washable, reusable, and individually sealed, in the following sizes:

Small - 7-8 inches (18 - 20 cm)
Medium - 8-1/4 - 9 inches (21.6 - 22.9 cm)
Large - 10-1/4 - 11 inches (26 - 27-1/2 cm)

The support shall be a 4 inch wide woven dual tension brace. The support shall have "figure 8 wrap" style for maximum support between the foot and leg. It shall not bind or constrict circulation. It shall be spirally constructed for good fit and to prevent rolling or binding. It shall be individually packaged in a clean unsterile condition.

Workmanship. The ankle support shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Package (PG). One package containing twelve individually packaged ankle supports, as specified, constitutes one unit.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or purchase order, the contractor may use his own or any facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Records. Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after delivery of the supplies to which such records relate.

Inspection. Inspection, as used herein, is defined as both examination (such as visual or auditory investigation without the use of special laboratory appliances or procedures) and testing (determination by technical means of physical and chemical properties) of the item.

Tests. Tests shall be conducted to determine compliance with specification requirements. Where feasible, the same sample shall be used for the determination of two or more test characteristics.

Sampling for examination. Sampling for examination shall be conducted in accordance with MIL-STD-105, with an AQL of 1.0 (percent defective) and an inspection level of II. The unit of product for examination purposes shall be one ankle support as specified in this description.

Defects.

Support not made of a cotton knit.

Support not free of tears, cuts, holes, or perforations.

Weight of support not correct.

Support not free of grease, dirt, or foreign material.

First article inspection. First article inspection shall be performed on the ankle support when a first article sample is required. This inspection shall include the examination and tests.

Metric products. Products manufactured to metric dimensions will be considered on an equal basis with those manufactured using inch-pound units, providing they fall within the tolerances specified using conversion tables contained in the latest revision of Federal Standard 376, and all other requirements of this document are met.

If a product is manufactured to metric dimensions and those dimensions exceed the tolerances specified in the inch/pound units, a request should be made to the contracting officer to determine if the product is acceptable.

The contracting officer has the option of accepting or rejecting the product.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/ contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580, as amended, and as implemented by Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.
