COMMERCIAL ITEM DESCRIPTION

COMPASS, DRAFTING, PIVOT, DROP SPRING BOW:

PEN AND PENCIL, WITH CASE

The General Services Administration has authorized the use of this commercial item description in preference to Federal Specification GG-C-550.

This description covers a drop-spring bow drafting compass consisting of a pivot rod, a pivot sleeve, and a spring bow with interchangeable pen and pencil attachments, and a parts kit, for use in drawing small circles in general drafting practice. A case shall be furnished with each compass.

Salient characteristics:

Design: The overall length of the compass shall be between 4 and 5 inches and shall draw circles through a minimum diameter of 1/32 inch to at least 2 inches.

Pivot rod: Corrosion-resisting steel with a hardened needle point. The range if movement shall be adjustable.

Pivot sleeve: Copper-nickel-zinc, corrosion-resisting steel, chrome-plated brass, nickel-plated, or anodized aluminum. Only one of the mentioned material shall be selected; a combination of materials is not allowed.

Spring bow: Corrosion-resisting steel with an integral socket of corrosion-resistant steel or copper-nickel-zinc alloy to accept and clamp the pen and pencil attachments. Only one of the mentioned materials shall be selected; a combination of materials is not allowed.

Pencil attachment: Corrosion-resisting steel or copper-nickel-zinc alloy. The attachment shall securely clamp leads ranging in size from 0.073 to 0.083 inch in diameter. Only one of the mentioned materials shall be selected; a combination of materials is not allowed.

Pen attachment: Corrosion-resisting steel. Spring blade or spring hinge type. Clean, unbroken and uniform lines 0.004 inch to 0.020 inch in width.

AMSC FSC 6675
DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Parts kit: Minimum required (needle and leads).

Case: Plastic. The interior shall have recesses for the compass parts.

Part number. The document part number for the compass, drafting, pivot, drop spring bow shall be as follows:

A50201 - 1
- 1 — Dash number for this item.
- A50201 — CID identifier.

Regulatory requirements. The offeror/contractor is encouraged to use recovered materials in accordance with Public Law 94-580 to the maximum extent practical.

Packaging and marking. Military packaging shall be specified when shipments are to overseas Department of Defense (DoD) consignees. Commercial packaging may be specified for shipments to DoD consignees within the Continental United States and to non-DoD consignees worldwide. When a supplier's normal packaging will satisfy the requirements for military packaging, it may be used.

Military packaging. Each compass in its case shall be preserved and packed to protect against physical damage and deterioration in a logistic environment characterized by the following:

1. Multiple handling during transportation and in-transit storage.
2. Shock, vibration, and static loading forces during worldwide shipment by all transport modes.
3. Uncontrolled warehouse storage for extended periods.
4. Weather exposure during shipment and in-transit transfers.
5. Stacking loads during shipment and storage.

Quantities of compasses destined to a single addressee may be unitized into one or more unit loads.

Commercial. Each compass in its case shall be packaged in accordance with the supplier's normal method for retail distribution. Individually packaged compasses shipped to a single destination may be unitized to permit handling as a single unit. Shipping containers shall comply with Uniform Freight Classification or National Motor Freight Classification rules.

Marking. Unit, intermediate (when provided), and exterior packs shall be marked with the item nomenclature, stock or part number, quantity per pack, and contract number as a minimum; additional marking shall be as specified in the contract or order. Exterior packs shall have in addition the complete consignee's address. Markings shall be applied in a legible manner, in a contrasting color, of an appropriate size, and of waterproof materials.

Quality assurance. Each compass and case shall be examined for the following defects. Presence of one or more defects shall be cause for rejection.

1. Dimensions not as specified.
2. Circle-drawing capability not as specified.
3. Materials not as specified.
4. Line-width drawing capability not as specified.
5. Clamping by pen or pencil attachments not secure.
6. Parts kit not as specified.
7. Case not as specified.
8. Packaging and marking not as specified.

Certification of commercial item. The contractor shall furnish certification for Government approval that the product offered to the Government meets the salient characteristics of this description and that the product conforms to the producer's own drawings, specifications, standards, and quality assurance practices and is the same product as the manufacturer's current product offered by the contractor in the commercial marketplace for at least one year preceding the solicitation. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Small business: A small business that cannot meet the certification-of-commercial-item requirement of this document, may make an offer under this solicitation; and, if such small business is the apparent successful offeror, the Government may require the small business to submit a sample drafting compass. Any such drafting compass may be evaluated for this solicitation if time to contract award permits. Such evaluation would be to determine conformance to all requirements of this commercial item description and to determine equivalency to drafting compass available in the commercial marketplace in the areas of durability, human factors engineering, and safety. It should be noted that samples are not required unless specifically requested by the contracting officer. Note. The Government may elect not to evaluate a sample from an apparent low bidder for award for this solicitation if a determination of urgency is made by the contracting officer. The sample would then be evaluated prior to future solicitation for comparable items.

Note: When this commercial item description is used for procurement, the commercial item certification clause must appear in the solicitation.
