COMMERCIAL ITEM DESCRIPTION

DIVIDERS, DRAFTING, PROPORTIONAL

The General Services Administration has authorized the use of this commercial item description in preference to Military Specification MIL-D-3467.

This description covers a divider, drafting, proportional, consisting of a type I for lines and circles, and a type II for any ratio between 1:1 and 1:10.

Salient characteristics:

Design: Type I dividers shall be between 7 and 8 inches, type II dividers shall be 10 inches. The dividers shall consist of two legs adjustable about a locking pivot. Each divider shall be provided in a fitted wood or plastic case.

Material: Material shall be on nickel-silver, passivated corrosion resistant steel, chrome plated brass or nickel brass. Only one material shall be used. A combination of material shall not be used.

Accuracy: The distance between the long points shall be within plus or minus one percent of the distance between the short points multiplied by the scale factor.

Types: Type of proportional dividers shall be as shown below:

Type I. Type I dividers shall have a line scale and a circle scale; the values for lines shall include 3/4, 2/3, 3/5, 2, 2.5, 3, 4, 5, 6, 7, 8, 9, and 10; the values for circles shall include marking of 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, and 20. Numbers shall be engraved for all values except 11, 13, 15, 17, and 19.

Type II. Type II dividers shall have a scale indicated by 100 engraved marks numbered from 10 to 110 by tens. Each fifth division shall be indicated by a longer mark. The 100 mark shall indicate a ratio of 1:1. The number 50 mark shall indicate a point separation of 1 to 3. All other marks shall be in direct linear relation to the 100 and 50 marks. A Vernier scale shall be provided to divide each division on the scale into 10 equal parts.

AMSC N/A FSC 6675

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Check the source to verify that this is the current version before use.

Part number The part number for the divider, drafting proportional shall be as follows:

AA 50204 - XX

- XX: Type (01 for type I and 02 for type II)
- AA 50204: CID identifier

Regulatory requirements, The offeror/contractor is encouraged to use recovered materials in accordance with Public Law 94-580 to the maximum extent practicable.

Packaging and marking. Military packaging shall be specified when shipments are to overseas Department of Defense (DoD) consignees. Commercial packaging may be specified for shipments to DoD consignees within the Continental United States and to non-DoD consignees worldwide. When a supplier's normal packaging will satisfy the requirements for military packaging, it may be used.

Military packaging. Each divider shall be preserved and packed to protect against physical damage and deterioration in a logistic environment characterized by the following:

1. Multiple handling during transportation and in-transit storage.
2. Shock, vibration, and static loading forces during worldwide shipment by all transport modes.
3. Uncontrolled warehouse storage for extended periods.
4. Weather exposure during shipment and in-transit transfers.
5. Stacking loads during shipment and storage.

Quantities of dividers destined to a single addressee may be consolidated into one or more packs each having not more than 50 pounds of dividers.

Commercial. Each divider shall be packaged in accordance with the supplier's normal method for retail distribution. Individually packaged dividers shipped to a single destination may be unitized to permit handling as a single unit. Shipping containers shall comply with Uniform Freight Classification or National Motor Freight Classification rules.

Marking. Unit, intermediate (when provided), and exterior packs shall be marked with the item nomenclature, stock or part number, quantity per pack, and contract number as a minimum; additional marking shall be as specified in the contract or order. Exterior packs shall have in addition the complete consignees's address. Markings shall be applied in a legible manner, in a contrasting color, of appropriate size, and of waterproof materials.

Quality assurance. The dividers shall be examined for the following defects. Presence of one or more defects shall be cause for rejection.

1. Design not as specified.
2. Material not as specified.
3. Accuracy not as specified.
4. Type not as specified.
5. Scale graduations and markings not as specified.
6. Packaging and marking not as specified.

Certification of commercial item. The contractor shall certify that the product offered to the Government meets the salient characteristics of this description and that the product conforms to the producer's own drawings, specifications, standards, and quality assurance practices and is the same product as the manufacturer's current product offered by the contractor in the commercial marketplace for at least one year preceding the solicitation. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Small business. A small business that cannot meet the certification-of-commercial-item requirement of this document, may make an offer under this solicitation; and, if such small business is the apparent successful offeror, the Government may require the small business to submit sample proportional dividers. Any such dividers may be evaluated for this solicitation if time to contract award permits. Such evaluation would be to determine conformance to all requirements of this commercial item description and to determine equivalency to proportional dividers available in the commercial marketplace in the areas of durability, human factors engineering, and safety. It should be noted that samples are not required unless specifically requested by the contracting officer. Note. The Government may elect not to evaluate a sample from an apparent low offerer for award for the solicitation if a determination of urgency is made by the contracting officer. The sample would then be evaluated prior to future solicitation for comparable items.

Notes:

1. When this commercial item description is used for procurement, the commercial item certification clause must appear in the solicitation.
2. The ordering activity shall specify the type of dividers required.
