MILITARY STANDARD

AUTOMATED ENGINEERING
DOCUMENT PREPARATION SYSTEM

UNIVERSAL JOINTS

TO ALL HOLDERS OF MIL-STD-35-104A(MI):

1. THE FOLLOWING PAGES OF MIL-STD-35-104A(MI) HAVE BEEN REVISED AND SUPERSEDE THE PAGES LISTED.

NEW PAGE	DATE	SUPERSEDED PAGE	DATE
1	26 SEPTEMBER 1986	(Reprinted without change)	
2	18 SEPTEMBER 1992	2	26 SEPTEMBER 1986

2. RETAIN THIS NOTICE PAGE AND INSERT BEFORE THE TABLE OF CONTENTS.

3. Holders of MIL-STD-35-104A(MI) will verify that page changes and additions indicated above have been entered. The notice page will be retained as a check sheet. This issuance, together with appended pages is a separate publication. Each notice is to be retained by stocking points until the Military Standard is completely revised or canceled.

1. SCOPE

1.1 General. This dash-numbered part of the Automated Engineering Document Preparation System (AEDPS), provides detailed requirements for the preparation of Military Specification Exception (MSE) documentation for Universal Joints.

1.2 Purpose. This military standard provides the necessary information to prepare a Specification Requirement Sheet (SRS) which will be used to generate a MSE by automated data processing.

1.3 Utilization. General instructions, quality assurance provisions, packaging, and notes, applicable to all AEDPS dash-numbered parts have been included in the basic document (DOD-STD-35) to avoid redundancy. Unless otherwise specified in this dash-numbered part, the following list contains additional subjects applicable to all AEDPS dash-numbered parts and included in DOD-STD-35:

a. Writing Methodology
b. Document and Part Numbering
c. Applicable Documents
d. Single and Multi-item Specification (Tabulation)
e. Keyword Code Index (KCI)
f. General Requirements of AEDPS

1.4 Military Specification Exception Title Index. The title code for an MSE shall be selected from one of the MSE titles listed in the Title Index (see table I). Data bases have been established for the generation of MSEs for the MSE titles indicated. If a suitable title code is not contained in the Title Index, leave the title code spaces on the SRS blank, and attach a request for assignment of a title code. Include in the request the desired title and the base document identifier. A code will be assigned and the code, title, and base document will be made a part of the Title Index.

One of the six-digit codes, listed in the Title Index and entered on a SRS, specifies that the title of the MSE will be the title shown in the Title Index.

Each MSE title, listed in the Title Index, is compatible with the document(s) listed with that title under base document. The list of base documents may or may not be a complete listing. The information shown under coverage is intended for the user's reference. When more than one document is listed for an MSE title, this information will be useful in determining which of the documents is most suitable for use as the base document.

Source: https://assist.dla.mil -- Downloaded: 2026-10-23T21:02Z
Check the source to verify that this is the current version before use.

The MSE title may or may not be the same as the title used in DODISS, FIGG, or the base document. In general, the MSE title uses the basic federal item listed in Cataloging Handbook H6. However, titles with additional modifying and identifying words are provided to assist in defining the scope of the MSE. Also, less restrictive titles are provided to prevent exclusion of items.

TABLE I. TITLE INDEX

MSE TITLE	TITLE CODE	BASE DOCUMENT NUMBER	BASE DOCUMENT COVERAGE
UNIVERSAL JOINTS	116001	MIL-U-3963	ANTIFRICTION
		MIL-J-6193	PLAIN
		MS20270	LIGHT DUTY
		MS20271	HEAVY DUTY
		MIL-U-20625	BLOCK TYPE
UNIVERSAL JOINT, ANTIFRICTION BEARINGS	116002	MIL-U-3963	ROUND HUBS
UNIVERSAL JOINT, BLOCK TYPE	116006	MIL-U-20625	ROUND HUBS
UNIVERSAL JOINT, PLAIN, LIGHT AND HEAVY DUTY	116009	MIL-J-6193	
		MS20270	LIGHT DUTY
		MS20271	HEAVY DUTY
