MS36	19 mm wide stainless steel rack clip set (two clips per set)			

MATERIAL: The rack shall be made of autoclavable (121°C) polypropylene plastic. Material for clip is as noted in table.

DESIGN: Racks MS36386-1 thru -4 shall be constructed with two decks for holding micro sample tubes. MS36386-5 thru -9 shall be constructed with three decks for holding test tubes. The tube locations shall be numbered and lettered for easy identification. The lower deck shall have rounded wells with drain holes. The end plates shall have hand grips. The racks shall be stackable and held tightly together by MS36386-10 clips.

NOTE: 1. Items differing from this Military Standard by minor variations in design or dimensions are considered standard under this document, provided such variations do not affect performance and are not in conflict with the material requirements specified herein.
