*Paragraph 3.3.11.2: Change the last sentence and add an additional sentence as follows:

"Anodic treatment is not prohibited, but masking shall be employed to retain the quality of the original metal at the interconnecting box mounting surface and mounting screw holes. Masking shall also be employed at the input and output connector surfaces and mounting screw holes."

Paragraph 3.3.12: Delete next to last sentence and substitute: "The pre-amplifier shall not be polarity sensitive."

NOTE: The margins of this amendment are marked with asterisks to indicate where changes (additions, modifications, corrections, deletions) from the previous issue were made. This was done as a convenience only and the Government assumes no liability whatsoever for any inaccuracies in these notations. Bidders and contractors are cautioned to evaluate the requirements of this document based on the entire content irrespective of the marginal notations and relationship to the last previous issue.
