COMMERCIAL ITEM DESCRIPTION

BACON BITS, IMITATION

The U.S. Department of Agriculture has authorized the use of this Commercial Item Description.

Salient characteristics.

Imitation bacon bits are a ready-to-use convenience item. They shall be prepared from soybean derivatives, vegetable oil, salt, natural or imitation flavoring, caramel or artifical coloring, preservatives, and other ingredients. They shall be reddish brown in color, lean looking, and have a bacon flavor. They shall be in the shape of chips or bits and be crispy and crunchy in texture resembling crumbled bacon. They shall be prepared from food grade materials and shall be processed using good manufacturing procedures. They shall be free from rancid, sour, or other undesirable flavors and odors. The finished product shall not require refrigeration.

Contractor's certification.

By submitting an offer, the contractor certifies that the product offered meets the specified salient characteristics of this Commercial Item Description; conforms to the producer's own specifications and standards, including product characteristics, manufacturing procedures, quality control procedures, and storage and handling practices; has a national or regional distribution from storage facilities located within the United States, its territories, or possessions; and is sold on the commercial market. The Government reserves the right to determine proof of such conformance prior to the first delivery from point of origin and any time thereafter, up to and including delivery at final destination, as may be necessary to determine conformance with the provisions of the contract.

Regulatory requirements.

The delivered product shall comply with all applicable Federal and State mandatory requirements and regulations relating to the preparation, packaging, labeling, storage, distribution, and sales of the product in the commercial marketplace. All deliveries shall conform in every respect to the provisions of the Federal Food, Drug, and Cosmetic Act and regulations promulgated thereunder.

Preservation, packaging, packing, labeling, and marking.

The bacon bits shall be preserved, packaged, packed, and case marked in accordance with good commercial practice. Commercial labeling and packaging, as may be augmented by the contract or purchase order, shall be acceptable. Shipping containers shall comply with National Motor Freight Classification or Uniform Freight Classification, as applicable.

For Department of Defense procurement.

The following requirements are applicable when specified by the contracting officer:

A. Commercial packaging. Not more than 22 ounces of product shall be packaged in a foil-laminated bag or metal can in accordance with good commercial practice.

B. Commercial packing. The product shall be packed in a shipping container complying with Uniform Freight Classification or National Motor Freight Classification, as applicable, except metal fasteners shall not be used in the final closure of the fiberboard boxes.

C. Commercial unit loads. Shipping containers shall be arranged in unit loads in accordance with Type III, Class G of MIL-L-35078. When unit loads are strapped, the strapping shall be limited to nonmetallic strapping.

D. Export packaging.

1. Foil-laminated bag. Not more than 22 ounces of product shall be packaged in a foil-laminated bag in accordance with good commercial practice.

2. Can. Not more than 22 ounces of product shall be packaged in an open top style, round metal can with a soldered or welded side seam and compound-lined, double-seamed ends. The can shall be made throughout from not less than 0.25 pound per base box electrolytic tin plate. The can shall have a sufficient base weight and temper to protect the product during shipment and storage. The can shall be coated overall on the outside with a coating conforming to Type I or when specified Type III of TT-C-495.

E. Export packing.

1. Foil-laminated bags. Bags shall be packed in a snug-fitting fiberboard box constructed and closed in accordance with Style RSC-L, Grade W5c or W5s of PPP-B-636. Each box shall be fitted with a weather-resistant grade fiberboard partition which provides a cell for each bag. In addition, weather-resistant grade fiberboard pads shall be placed on top and bottom of the bags. Each fiberboard box shall be reinforced with nonmetallic strapping or pressure-sensitive adhesive filament-reinforced tape in accordance with the appendix of PPP-B-636.

2. Cans. Cans of product shall be packaged in a snug-fitting fiberboard box, constructed and closed in accordance with Style RSC, Grade W5c or W5s of PPP-B-636. Each fiberboard box shall be reinforced with nonmetallic strapping or pressure-sensitive adhesive filament-reinforced tape in accordance with the appendix of PPP-B-636.

F. Export unit loads. Shipping containers shall be arranged in unit loads in accordance with Type I, Class A of MIL-L-35078. When unit loads are strapped, the strapping shall be nonmetallic.

G. Labeling (commercial and export). Labeling of packages shall be in accordance with good commercial practice and be in compliance with the Federal Food, Drug, and Cosmetic Act and regulations promulgated thereunder.

H. Marking of shipping containers (commercial and export). Commercial markings for shipping containers are acceptable, provided the following information is included:

National Stock Number
Item Description
Quantity, Unit of Issue
Date of Packaging (month/year)
Contract Number
Inspection/Test Date
Name, Address, and Zip Code of Contractor

I. Marking of commercial and export unit loads. Commercial and export unit loads shall be marked on two adjacent sides with the following information:

National Stock Number
Item Description
Number of Containers per Load, Quantity per Container, Unit of Issue
Commercial or Export Unit Load (as applicable)
Date of Pack (month/year)
Inspection/Test Date
Contract Number or Purchase Order Number
Name, Address, and Zip Code of Contractor
Gross Weight (including pallet weight)
Cube

When the markings on one or more individual shipping containers are exposed on two adjacent sides of the unit load, a minimum 3- by 5-inch white label shall be applied on the same two adjacent sides of the load. The label shall be marked (letter size not less than 1/2 inch) with the following information:

Number of Containers per Load
Commercial or Export Unit Load (as applicable)
Gross Weight (including pallet weight)
Cube
