P–P–567b
AMENDMENT—2
June 9, 1964

SUPERSEDING
Int. Amend.—1
July 2, 1963

FEDERAL SPECIFICATION

POLISH, SHOE; PASTE

This amendment, which forms a part of Federal Specification P-P-567b, dated May 20, 1958, was approved by the Commissioner, Federal Supply Service, General Services Administration, for the use of all Federal agencies.

Page 4, paragraph 5.1.1 *Level B.* Delete and substitute:

5.1.1 *Level B.* The shoe polish shall be packaged in suitable commercial, round metal containers with friction slip covers provided with curled edges and special unlocking features. The unlocking feature may be a pressure pop-off lid, a mechanical locking device or cutouts capable of receiving a coin or similar object for prying off lid. Alternatively, round metal cans may be furnished with slip covers provided with a bayonet lock, properly known in the can industry as the 'interrupted thread lock'. Net weight of the unit container shall be 1-1/2 ounces (avoirdupois). Twelve unit containers shall be intermediate packaged in a suitable cardboard box.
