DATA ITEM DESCRIPTION

Title: Custom Microcircuit Procurement Plan

Number: DI-MISC-81710
AMSC Number: 7664
DTIC Applicable: No
Office of Primary Responsibility: NS/I5231
Applicable Forms: None

Approval Date: 24 NOV 2006
Limitation: N/A
GIDEP Applicable: No

Use/Relationship:

This plan shall document the delivery, test, and production schedules for each microcircuit vendor producing custom integrated circuits for this contract.

This Data Item Description (DID) contains the format and content preparation instructions for the data generated by the specific and discrete task requirements outlined in the contract. The term microcircuit or custom microcircuit, as used in this data item shall refer to both custom integrated circuits and hybrid microcircuits unless otherwise indicated.

Requirements:

1. Reference Documents: None.

2. Format. The report shall be in the contractor's format.

3. Content. The plan shall include the following;

3.1. Title page that includes the contract name, contract number, contractor name, date of preparation, security classification, and document title.

3.2. Plan objectives.

3.3. Identification of the delivery, test, and production schedules for each microcircuit vendor producing the custom microcircuits. The schedules shall be documented in either bar graph or calendar format.

3.4. Identification of the number of devices scheduled for delivery, test, and production each month the custom parts are procured.

4. END OF DI-MISC-81710
