COMMERCAL ITEM DESCRIPTION

DEODORANT, GENERAL PURPOSE (POWDER: FOR RUGS AND CARPETS)

The General Services Administration has authorized the use of this commercial item description.

Salient characteristics:

The product shall be a powdered deodorant designed to be sprinkled on rugs and carpets and removed by vacuum cleaning. The powder shall be free of lumps, aggregates or agglomerates that cannot be easily broken-up by the sprinkling operation. When used as directed, the product shall eliminate smoke, mustiness and common room odors. It shall reduce static electricity on carpets and help retard soiling of carpets. After vacuum cleaning, the product shall leave a pleasant fragrance in the air.

The product shall contain not less than 20 percent by weight sodium bicarbonate, and not less than 95 percent by weight sum of sodium bicarbonate, sodium sulfate and cornstarch.

The product shall be provided in reclosable shaker dispensers.

Certification. The contractor shall certify that the product offered meets the salient characteristics of this description, and that the product conforms to the producer's own drawings, specifications, standards, and quality assurance practices, and is the same product sold in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Packaging, packing, and marking. The items shall be packaged in accordance with normal commercial practice and packed to assure acceptance by common carrier and provide product protection against loss and damage during multiple shipments, handling, and storage. The shipping container shall be in compliance with National Motor Freight Classification and Uniform Freight Classification. Shipping containers shall be marked as specified in the contract or order.

Note: Bid evaluation: Bids shall be evaluated on the basis of price per ounce of deodorant.
