INTERIM AMENDMENT

TO

COMMERCIAL ITEM DESCRIPTION

TAPE, GUMMED (PAPER, REINFORCED, LAMINATED)

This interim amendment was developed by the General Services Administration, Federal Supply Service, New York, NY 10278, based upon currently available technical information. It is recommended that Federal agencies use it in procurement and forward recommendations for changes to the preparing activity at the address shown above.

The General Services Administration has authorized the use of this Interim Amendment as a valid exception to A-A-1671B, dated August 10, 1990.

Page 1

Paragraph 1A

DELETE: In its entirety.

ADD: The paper used in fabricating the tape shall be kraft paper with a combined basis weight of 55 pounds (24 X 36 - 500) ± 5% prior to laminating and gumming. Testing shall be in accordance with TAPPI T 410.

Paragraph 1C

DELETE: In its entirety.

ADD: The tape shall be reinforced by crosswise reinforcing fibers spaced not less than two fibers per inch on average and by lengthwise fibers spaced not more than an average of 1/2" apart. If a diamond pattern is employed for crosswise reinforcement, the spacing between the parallel sides of the diamond must not be more than 1-1/4". The three-way tape shall be reinforced in both the machine direction and the cross direction with reinforcing fibers spaced not less than two fibers per inch on average, in addition to the diamond patterned reinforcement described above.

DISTRIBUTION STATEMENT A: Approved for public release; distribution is unlimited.

Page 2 Table I Physical Properties

Under Machine Direction: delete "75" and add "63".

Under Cross Machine Direction: delete "45" and add "30".

Page 2

Paragraph 1G

DELETE: In its entirety.

ADD: The tape shall be furnished in roll form with dimensions and tolerances as specified in the contract or order. The end of the outer leaf of tape shall be adhered to the next layer to prevent unwinding.
