# COMMERCIAL ITEM DESCRIPTION

## BAG, PLASTIC (GARMENT)

The General Services Administration has authorized the use of this commercial item description in perference to MIL-B-43716.

This description covers plastic bags intended for use in dry cleaning establishments as protective covers for dry cleaned garments.

Salient characteristics:

The bags under this description shall be furnished in the following types and sizes:

Type I - Preformed for trousers
Type II - Preformed for suits and jackets
Type III - Preformed for dresses and coats

The bags shall be fabricated from polyethylene tubing with an average thickness of not less than 0.0005 inches thick. The polythylene shall be clear and shall be free of specks and gels.

The bags shall have a seam at the top which is compatible with the design of commercial coat and pants hangers and with a slit opening not less than 2-1/2 inches. The bags shall be manufactured with 4-inch gussets conforming to industry practice.

The bag width, exclusive of the gussets, shall be 21 inches. The bag lengths shall be 30 inches for Type I, 36 inches for Type II, and 54 inches for Type III, exclusive of seams, seals, or perforations. A plus or minus 1/2 inch tolerance is permitted on bag dimensions.

The bags shall be uniformly wound on a tube of not less than 3 inches inside diameter. The length of the tube shall be at least 1/4 inch greater than the specified bag width. A minimum of 1/8 inch of tube shall be visible at each end of the roll. Perforations shall be cut between bags to allow easy separation.

The bags shall be printed in white or any other noticeable color, every 16 to 20 inches, with the following warning, in characters not less than 3/8 inches high:

DANGER WARNING

TO AVOID SUFFOCATION,
KEEP AWAY FROM INFANTS AND CHILDREN

DO NOT USE IN CRIBS, BEDS
CARRIAGES AND PLAY PENS

THIS BAG IS NOT A TOY

Workmanship. The bags shall be uniformly made, free from holes, tears, cuts, creases, wrinkles, or other imperfections which might impair their usefulness.

Certification. The contractor shall certify that the product offered meets the salient characteristics of this description, and that the product conforms to the producer's own drawings, specifications, standards, and quality assurance practices, and is the same product sold in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.
