COMMERCIAL ITEM DESCRIPTION

PILOCARPINE OCULAR SYSTEM, USP

The General Services Administration has authorized the use of this Commercial Item Description as a replacement for Military Specification MIL-P-37784 which is cancelled.

Salient characteristics.

Shall be Pilocarpine Ocular System, USP, designed for insertion into the cul-de-sac of the eye for continuous release of the drug following placement.

Shall be in accordance with the requirements of the USP.

All ingredients shall be of a pharmaceutical grade.

For Strength 1 - The Pilocarpine Ocular System shall provide 20 mcg of pilocarpine per hour over a seven-day period. Shall contain 5 mg of Pilocarpine within the applicable assay limits in a core with alginic acid. The core shall be surrounded by an ethylene-vinyl acetate copolymer membrane with di(2-ethylhexyl) phthalate which controls the diffusion of the Pilocarpine into the eye. The system shall measure 5.7 x 13.4 mm on its axis and 0.3 mm in thickness, and shall be surrounded by a white border consisting of ethylene-vinyl acetate copolymer membrane with titanium dioxide.

For Strength 2 - The Pilocarpine Ocular System shall provide 40 mcg of Pilocarpine per hour over a seven-day period. Shall contain 11 mg of Pilocarpine within the applicable assay limits in a core with alginic acid. The core shall be surrounded by an ethylene-vinyl acetate copolymer membrane with di(2-ethylhexyl) phthalate which controls the diffusion of the Pilocarpine into the eye. The system shall measure 5.7 x 13.4 mm on its axis and 0.5 mm in thickness, and shall be surrounded by a white border consisting of ethylene-vinyl acetate copolymer membrane with titanium dioxide.

AMSC N/A FSC 6505

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Workmanship. The product shall be free from defects which detract from its appearance or impair its serviceability.

Unit Box (BX). One box containing 8 Pilocarpine Ocular Systems, as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug, and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered material. The offeror/contractor is encouraged to use recovered material in accordance with Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to the degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

Ordering data. Intermediate/exterior package quantities and labeling and marking must be specified in the contract and/or order.
