# COMMERCIAL ITEM DESCRIPTION

## POUCH, LIQUID ABSORBENT (Break Open Type)

The General Services Administration has authorized the use of this Commercial Item Description.

This Commercial Item Description covers a break open liquid absorbent pouch for absorbing a spillage.

Salient Characteristics:

Shall be a liquid absorbent pouch consisting of absorbent powder in a break open pouch.

Shall be 1-1/4 X 1-1/4 inches in dimension.

Shall be suitable for absorbing spillages of urine, blood and biohazardous fluids. Upon contact with a liquid spillage, the pouch shall break open and release the absorbent powder contents.

Shall have capacity to absorb and contain a 200 milliliter (ml) volumetric spillage.

Shall provide an absorbent powder consisting of superabsorbent polymers. The absorbent powder shall be capable of absorbing aqueous liquid 400 times its own weight.

Shall include cautionary markings on pouch regarding avoiding eye contact with packet, and eating or inhalation of the absorbent.

Workmanship. The liquid absorbent pouch shall be free from defects which detract from its appearance or impair their serviceability.

Unit. Package (PG). One package containing one thousand liquid absorbent pouches, as specified, constitutes one unit.

AMSC N/A FSC 6530

DISTRIBUTION STATEMENT A: Approved for public release; distribution is unlimited.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or purchase order, the contractor may use his own or any facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Records. Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after delivery of the supplies to which such records relate.

Inspection. Inspection, as used herein, is defined as both examination (such as visual or auditory investigation without the use of special laboratory appliances or procedures) and testing (determination by technical means of physical and chemical properties) of the item.

Inspections and testing. Inspection and testing shall be conducted on the liquid absorbent pouch in accordance with commercial practice. Sampling for inspection and testing shall be in accordnace with commercial practice.

Metric products. Products manufactured to metric dimensions will be considered on an equal basis with those manufactured using inch-pound units, providing they fall within the tolerances specified using conversion tables contained in the latest revision of Federal Standard 376, and all other requirements of this document are met. If a product is manufactured to metric dimensions and those dimensions exceed the tolerances specified in the inch/pound units, a request should be made to the contracting officer to determine if the product is acceptable. The contracting officer has the option of accepting or rejecting the product.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

Ordering data. (Intermediate/exterior package quantities, labeling, and marking must be specified in the contract and/or order.)

NOTE: The following National Stock Number is covered by this document.

| NATIONAL STOCK NUMBER | ITEM IDENTIFICATION |
|---|---|
| 6530-01-307-7434 | POUCH, LIQUID ABSORBENT, Polymer, 1-1/4 by 1-1/4 inch, 200 ml, 1000's |
