DATA ITEM DESCRIPTION

Title: NIGHT VISION IMAGING SYSTEM (NVIS) COMPATIBLE AIRCRAFT INTERIOR LIGHTING COMPLIANCE DATA

Number: DI-MISC-80113B
AMSC Number: N10473
DTIC Applicable: N/A
Preparing Activity: AS
Applicable Forms: N/A

Approval Date: 20240408
Limitation: N/A
GIDEP Applicable: N/A
Project Number: MISC-2024-001

Use/relationship: This data verifies compliance with radiance, chromaticity and photometric brightness requirements of MIL-L-85762A, LIGHTING, AIRCRAFT, INTERIOR, NIGHT VISION IMAGING SYSTEM (NVIS) compatible.

This Data Item Description (DID) contains the format, content, and intended use information for the data product resulting from the work task described in the contract SOW.

This DID supersedes DI-MISC-80113A.

Requirements:

1. Reference Documents. The applicable issue of the documents cited herein, including their approval dates and dates of any applicable amendments, notices, and revisions, shall be as specified in the contract.

2. Format. Contractor format shall be used; however the sequence of data submitted shall closely correspond with the sequence of the requirements paragraphs of MIL-L-85762A.

3. Content.

3.1. Introductory information shall include the following:

3.1.1. Title, descriptive of each test to be conducted.

3.1.2. Identification of each lighting system, sub-system, or component being tested.

3.1.3. Type and class of NVIS compatible lighting system.

3.1.4. Date of measurement.

3.1.5. Spectroradiometer control position(s).

3.1.6. Measurement conditions.

3.2. Plots.

Check the source to verify that this is the current version before use.

3.2.1. A graphics plot showing the spectral sensitivity of the spectroradiometer set at the control positions used during the lighting system, sub-system, or component measurement s specified in 4.8.13 and 4.8.14 of MIL-L-85762A.

3.2.2. A graphics plot showing the spectral radiance of the lighting system, sub-system, or component on a semi-logarithmic scale over wavelengths from 380 nm ti 930 nm as specified in 4.8.13 and 4.8.14 of MIL-L-85762A.

3.3. Tables. A table showing the spectral radiance of the lighting system, sub-system, or component from 380 nm as specified in 4.8.13 and 4.8.14 of MIL-L-85762A.

3.4. Calculations.

3.4.1. All u' and v' 1976 UCS chromaticity coordinate calculations as specified in 4.8.13 of MIL-L-85762A.

3.4.2. All NVIS radiance calculations as specified in 4.8.14 of MIL-L-85762A.

3.4.3. Photometric brightness values as specified in 4.8.12 of MIL-L-85762A.

End of DI-MISC-80113B
