DATA ITEM DESCRIPTION

Title: SYSTEM SAFETY PROGRAM PROGRESS REPORT (SSPPR)

Number: DI-SAFT-80105D

Approved Date: 20250715

AMSC Number: F10583

Limitation: N/A

DTIC Applicable: No

GIDEP Applicable: No

Preparing Activity: 40 (AFMC/SE)

Project Number: SAFT-2025-005

Applicable Forms: N/A

Use/Relationship: The System Safety Program Progress Report (SSPPR) is used to cover periodic reviews of safety activities and to monitor progress of contractor system safety efforts.

a. This Data Item Description (DID) contains the content and format preparation instructions for the data product generated by the specific and discrete task requirement as delineated in the contract.

b. This DID is related to DI-SAFT-80101, *System Safety Hazard Analysis Report (SSHAR)*; DI-SAFT-80102, *Safety Assessment Report (SAR)*; DI-SAFT-80106, *Health Hazard Assessment Report (HHAR),* and DI-SAFT-82085, *Hazard Tracking System (HTS) Data*.

c. Do not use DI-ADMN-81250, *Conference Minutes*, in conjunction with this DID. (Copies of these DIDs are available online at http://quicksearch.dla.mil.)

d. This DID supersedes DI-SAFT-80105C.

Requirements:

1. Reference documents. The applicable issue of the documents cited herein, including their approval dates and dates of any applicable amendments, notices, and revisions, shall be as specified in the contract.

2. Format. The SSPPR shall be in the contractor's format.

3. Content. The SSPPR shall include a description of the general progress made relative to the system safety program during the reporting period and the projected work for the next reporting period. The report shall contain the following information in narrative form:

3.1. A brief summary of activities, progress, and status of the safety effort.

3.1.1. It shall highlight significant achievements and problems.

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Source: https://assist.dla.mil -- Downloaded: 2026-10-26T10:34Z
Check the source to verify that this is the current version before use.

3.1.2. It shall include progress toward completion of safety data items prepared or in work.

3.1.3. It shall include a status toward completion of Level of Rigor (LOR) task activities.

3.2. Newly recognized significant hazards and significant changes in the degree of control on known hazards

3.3. Inventory of identified hazards, with each hazard tabulated by sequence number, identified by the initial risk index value and revised risk index value after incorporation of hazard mitigation, action taken to date, and its action status: open, closed, or monitor. Include any hazards which the contractor believes cannot be reduced to an acceptable level of risk and will require managing activity action.

3.4. Status of all recommended mitigation measures that have not been implemented and the date of hazard resolution.

3.5. Significant cost, schedule, and performance changes that impact the safety program.

3.6. Discussion of documents reviewed by safety during the reporting period. Indicate whether they were acceptable for safety content and whether or not inputs to improve the safety posture were made.

3.7. Discussion of specific efforts for each unit of software to determine Software Criticality Index (SwCI) as well as developing the artifacts documenting completion of LOR task activities.

3.8. Proposed agenda for future system safety meeting(s).

3.9. Minutes of the past system safety meeting(s).

End of DI-SAFT-80105D
