DATA ITEM DESCRIPTION

Form Approved
OMB No. 0704-0188
Exp. Date: Jun 30, 1986

1. TITLE	2. IDENTIFICATION NUMBER
PROCEDURAL SUPPORT DATA	DI-TMSS-80065

3. DESCRIPTION/PURPOSE

3.1 To obtain procedural support data required for installation, testing, training, limited operation, maintenance, and related functions pertaining to use of equipment primarily during exploratory and/or advanced development programs.

4. APPROVAL DATE (YYMMDD)	5. OFFICE OF PRIMARY RESPONSIBILITY (OPR)	6a. DTIC REQUIRED	6b. GIDEP REQUIRED
860106	AF 16		

7. APPLICATION/INTERRELATIONSHIP

7.1 This Data Item Description contains the format and content preparation instructions for that data generated under the work task described by 5.2.1 of MIL-STD-1790(USAF).

7.2 This Data Item Description should be selectively applied to obtain a procedural support data package that is compiled primarily from existing source material and is required to accomplish tasks associated with the development effort.

8. APPROVAL LIMITATION	9a. APPLICABLE FORMS	9b. AMSC NUMBER
		F3711

10. PREPARATION INSTRUCTIONS

10.1 Source document. The applicable issue of the documents cited herein, including their approval date, and dates of any applicable amendmends and revisions shall be as reflected in the contract.

10.2 General. The format, technical content, sequence of content, etc.,for preparation of the data shall be as specified herein.

10.2.1 Content and format. Homogeneous and organized groupings of procedural support data shall be prepared by system, subsystem, or end items which will be required for disposal, rendering safe, maintenance, electrostatic discharge, protective handling, etc.

a. Source material shall be identified/prepared such as flow diagrams, commercial data, schematics, parts breakdown (illustrated as required), performance, model, or detailed specifications, system and maintenance analyses, test process plans, ground system test procedures, engine test directives, and other similar type documentation used to develop the procedural support data package.

b. Any additional source data or documents developed or to be developed whose characteristics are such that they must be revised and updated to allow the progressive development of the procedural support data package shall be furnished in list form.

c. This data shall be delivered as a separate technical publication in the same style and format as the technical manual specification as required by the acquiring activity.
