MILITARY SPECIFICATION

MANUALS, FLIGHT; SUPPLEMENTS, SAFETY AND OPERATIONAL; TITLE PAGE AND LIST OF EFFECTIVE PAGES, PREPARATION OF

This specification is approved for use by all Departments and Agencies of the Department of Defense.

1. SCOPE.

1.1. This specification provides specific requirements for preparation of title pages, list of effective pages, and status pages for aircraft/aircrew flight manuals, and for operational and safety supplements to flight and technical manuals. The aircraft/aircrew flight manuals include: Flight Manuals (-1 series); Air Refueling Procedures Manuals (1-1C-1 series); Nuclear Weapon Delivery Manuals (-25 thru -30 series); Cargo Loading (-9 series); Non-Nuclear Munitions Delivery Manuals (-34 series); Acceptance and/or Functional Check Flight Procedures Manuals (-6CF-1 series) which incorporate normal Air Crew Checklists.

1.2. The requirements of this specification are in addition to those of MIL-M-38784 and where there is conflict with the general specification, the requirements herein shall apply.

2. APPLICABLE DOCUMENTS.

2.1. The following documents of the issue in effect on date of invitation for bids or request for proposal, form a part of this specification to the extent specified herein.

SPECIFICATION MILITARY	
MIL-M-38784	MANUALS, TECHNICAL: GENERAL STYLE AND FORMAT REQUIREMENTS
MIL-P-38790	PRINTING PRODUCTION OF TECHNICAL MANUALS: GENERAL REQUIREMENTS FOR

(Copies of documents required by contractors in connection with specific procurement functions should be obtained from the procuring activity or as directed by the Contracting Officer.)

3. REQUIREMENTS.

3.1. The general manner of preparation of Title Pages and List of Effective Pages shall be in accordance with MIL-M-38784 except where otherwise specified herein.

3.1.1. Title Pages. Title pages for Air Crew Flight Manuals and supplements shall be in accordance with the general requirements of MIL-M-38784, with the exception of the following special requirements.

3.1.1.1. Aircraft Flight Manual (-1). General title block page requirements apply except as follows:

3.1.1.1.1. Illustration. A large, clear, black and white photographic view of the aircraft in flight with appropriate background scenery shall be placed on the title page (figure 1). A line drawing (artist's sketch) may be used provided the additional cost involved is negligible. Each change and/or revision shall then contain the same view. The illustration shall be designed and placed so as not to interfere with any printed matter. Procuring activity approval is required for the line drawing (artist's sketch) prior to its use.

Source: https://assist.dla.mil -- Downloaded: 2026-10-23T08:18Z
Check the source to verify that this is the current version before use.

3.1.1.1.2. Title. The words FLIGHT MANUAL shall be used and the type designation may be presented in any size and format suitable for an attractive title page. When applicable, the words PRELIMINARY, UTILITY or PARTIAL shall be placed above the words FLIGHT MANUAL. The words TECHNICAL MANUAL or REGULAR shall not be utilized.

3.1.1.2. Nuclear Weapon Delivery Manuals (-25 thru -30). General title page requirements apply except as follows:

3.1.1.2.1. Illustration. A large, clear black and white photographic view of the aircraft in flight, showing appropriate munitions configuration, if not classified, with appropriate background scenery shall be placed on the title page (figure 2). A line drawing (artist's sketch) may be used provided the additional cost involved is negligible. Each change and/or revision shall then contain the same view. The illustration shall be designed and placed so as not to interfere with any printed matter. Procuring activity approval is required for the line drawing (artist's sketch) prior to its use.

3.1.1.2.2. Title. The words NUCLEAR WEAPON DELIVERY MANUAL shall be used and the type designation may be presented in any size and format suitable for an attactive title page. When applicable, the words PRELIMINARY, UTILITY or PARTIAL shall be placed above the words NUCLEAR MUNITIONS DELIVERY MANUAL. The words TECHNICAL MANUAL or REGULAR shall not be utilized.

3.1.1.3. Cargo Loading (-9). General title page requirements apply except as follows:

3.1.1.3.1. Illustration. A large, clear, black and white photographic view of the aircraft on the ground, configured for loading shall be placed on the title page (figure 3). A line drawing (artist's sketch) may be used provided the additional cost involved is negligible. Each change and/or revision shall then contain the same view. The illustration shall be designed and placed so as not to interfere with any printed matter. Procuring activity approval is required for the line drawing (artist's sketch) prior to its use.

3.1.1.3.2. Title. The words CARGO LOADING MANUAL shall be used and the type designation may be presented in any size and format suitable for an attractive title page. When applicable, the words PRELIMINARY, UTILITY or PARTIAL shall be placed above the words CARGO LOADING MANUAL. The words TECHNICAL MANUAL or REGULAR shall not be utilized.

3.1.1.4. Non-Nuclear Munitions Delivery Manuals (-34). General title page requirements apply except as follows:

3.1.1.4.1. Illustration. A large, clear black and white photographic view of the aircraft in flight, showing appropriate munitions configuration, with appropriate background scenery shall be placed on the title page (figure 4). A line drawing (artist's sketch) may be used provided the additional cost involved is negligible. Each change and/or revision shall then contain the same view. The illustration shall be designed and placed so as not to interfere with any printed matter. Procuring activity approval is required for the line drawing (artist's sketch) prior to its use.

3.1.1.4.2. Title. The words NON-NUCLEAR WEAPONS DELIVERY MANUAL shall be used and the type designation may be presented in any size and format suitable for an attractive title page. When applicable, the words PRELIMINARY, UTILITY or PARTIAL shall be placed above the words NON-NCULEAR WEAPONS DELIVERY MANUAL. The words TECHNICAL MANUAL or REGULAR shall not be utilized.

3.1.1.5. Acceptance and/or Functional Check Flight Manual (-6CF-1). General title page requirements apply except as follows:

3.1.1.5.1. Illustration. A large, clear, black and white photographic view of the aircraft in flight with appropriate background scenery shall be placed on the title page (figure 5). A line drawing (artist's sketch) may be used provided the additional cost involved is negligible. Each change and/or revision shall then contain the same view. The illustration shall be designed and placed so as not to interfere with any printed matter. Procuring activity approval is required for the

Check the source to verify that this is the current version before use.

line drawing (artist's sketch) prior to its use.

3.1.1.5.2. Title. The words ACCEPTANCE AND FUNCTIONAL CHECK FLIGHT PROCEDURES MANUAL shall be used and the type designation may be presented in any size and format suitable for an attractive title page. When applicable, the words PRELIMINARY, UTILITY or PARTIAL shall be placed above the words ACCEPTANCE AND FUNCTIONAL CHECK FLIGHT PROCEDURES MANUAL. The words TECHNICAL MANUAL or REGULAR shall not be utilized.

3.1.6. Air Refueling Procedures Manual (1-1C-1-XX). General title page requirements apply except as follows:

3.1.1.6.1. Illustration. A large, clear black and white photographic view of the aircraft in flight, being air refueled, with appropriate background scenery shall be placed on the title page (figure 6). A line drawing (artist's sketch) may be used provided the additional cost involved is negligible. Each change and/or revision shall then contain the same view. The illustration shall be designed and placed so as not to interfere with any printed matter. Procuring activity approval is required for the line drawing (artist's sketch) prior to its use.

3.1.1.6.2. Title. The words AIR REFUELING PROCEDURES MANUAL shall be used and the type designation may be presented in any size and format suitable for an attractive title page. When applicable, the words PRELIMINARY, UTILITY or PARTIAL shall be placed above the words AIR REFUELING PROCEDURES MANUAL. The words TECHNICAL MANUAL or REGULAR shall not be utilized.

3.1.1.7. Partial Manual Title Page. A note shall be included, when appropriate, stating: "This publication is incomplete without (publication number)."

3.1.1.8. Supersedure Notice. The supersedure notice for a change or revision shall be placed so as not to interfere with the illustration. It shall include a list of all currently incorporate operational and safety supplements as well as a reference to the appropriate technical order index for the current status of aircrew flight manuals, operational and safety supplements and aircrew checklists. Incorporated supplements shall normally be listed individually. When several sequenced supplements are incorporated, they shall be grouped. When no operational or safety supplements are replaced, the notice shall read: REFER TO TECHNICAL ORDER INDEX TO (APPLICABLE TO NUMBER) AND ITS SUPPLEMENTS FOR CURRENT STATUS OF (AIR CREW) MANUALS, SAFETY SUPPLEMENTS, OPERATIONAL SUPPLEMENTS AND (AIR CREW) CHECKLISTS.

3.1.1.9. Classified Manual Reference. Where a separate classified manual has been issued to supply classified information not included in the basic aircrew manual, a reference that the basic manual is incomplete without the classified manual shall be included on the title page of the basic issue, revision, or change, as long as the classified manual remains in existence. A similar reference to the basic manual shall be included in the title page of the classified manual.

3.1.1.10. Emergency Procedure Notice. One or both of the following statements shall appear on the title page of all classified aircrew manuals, including changes, classified revisions and applicable classified supplements.

"When Section III, Emergency Procedures, is withdrawn from this manual for use in control towers, and if no classified information is contained in Section III, the security classification of Section III shall be cancelled."

"Radio transmission in the clear of pertinent emergency operating instructions contained herein is authorized under emergency conditions in accordance with AFM 60-5."

NOTE: The procuring activity will designate the appropriate statement(s).

3.1.2. Safety Supplements. Detailed requirements for formal safety supplements are as follows (see figures 7 and 8).

Source: https://assist.dla.mil -- Downloaded: 2026-10-23T08:18Z
Check the source to verify that this is the current version before use.

3.1.2.1. Margin. The title page of a safety supplement shall have red "SS's" on the top, bottom and outer side borders with the words SAFETY SUPPLEMENT at the bottom of the page. Refer to NOTE following 3.1.2.3.

3.1.2.2. Title Designation. The words SAFETY SUPPLEMENT shall be positioned above the words (APPLICABLE) MANUAL. The nomenclature shall be the same as the basic manual. Refer to NOTE following 3.1.2.3.

3.1.2.3. Supplement Notices and Replacement Notices. A notice shall reference the basic manual supplemented, and, if applicable, reference any publication(s) replaced. For example: "THIS PUBLICATION SUPPLEMENTS T.O. 1C-141A-1 DATED 13 SEPTEMBER 1967 AND REPLACES INTERIM SAFETY SUPPLEMENT T.O. 1C-141A-1SS-144 DATED 23 DECEMBER 1974 WITH NO CHANGES TO THE TEXT." For technical manuals the following sentence will be provided in the notice: "A suitable reference to this supplement will be made on the title page of the basic publication."

NOTE: When a safety supplement is issued prior to publication of a basic manual, in addition to the applicable notice above, a statement worded as follows shall follow the first sentence in the notice: "BASIC (APPLICABLE) MANUAL, TO 1C-141A-1, is under preparation and should be distributed approximately (DATE).

3.1.2.4. Responsibility Notice. The responsibility notice shall be positioned as shown in figures 7 and 8.

3.1.2.5. Security Information. The security markings shall be the same as for other title pages, except as follows:

a. The classification shall be placed at the top center of the border and be centered at the bottom of the page above the words SAFETY SUPPLEMENT.

b. The espionage law notice shall be used unless the supplement carries the RESTRICTED DATA notation.

3.1.2.6. Publication Date. When a publication date is required, it shall be the same as the date of the replaced interim safety supplement, unless the formal supplement contains additional changes. The date shall be positioned as shown in figures.

3.1.3. Operational Supplements. Detailed requirements for formal operational supplements shall be the same as for formal safety supplements except: (see figures 9 and 10).

a. The margin shall consist of OS's in lieu of SS's.

b. The words OPERATIONAL SUPPLEMENT in lieu of SAFETY SUPPLEMENT.

c. The margin shall be printed in black.

d. The responsibility notice shall be printed in black.

3.1.5. Status Page for Aircrew Manual Safety/Operational Supplements. The last page of each aircrew manual formal safety/operational supplement shall consist of a status page in the format of figure 11.

3.1.6. List of Effective Pages. A list of effective pages shall be prepared in accordance with MIL-M-38784.

4. QUALITY ASSURANCE PROVISIONS.

4.1. Quality assurance provisiyns shall be in accordance with MIL-M-38784 and MIL-M-38790.

5. PREPARATION FOR DELIVERY.

5.1. Packaging, packing and marking for shipment shall be in accordance with requirements of MIL-M-38784 and MIL-M-38790.

Source: https://assist.dla.mil -- Downloaded: 2026-10-23T08:18Z
Check the source to verify that this is the current version before use.

6. NOTES.

6.1. Intended Use.

6.1.1. Title page, list of effective pages and safety/operational supplements. These pages will become a part of each applicable manual.

6.2. Supersession Data. This specification supersedes portions of MIL-M-4410E (USAF), dated 1 May 1967, concerning title pages, list of effective pages for aircrew flight manuals, and safety and operational supplements.

1. *PURPOSE.*

To correct deficiencies which allow cable connections to short against the fuel tank.

2. *INSTRUCTIONS.*

a. Remove mounting hardware and lay down reconnection board assembly, Part No. 64D41573.

b. *Inspect cable connections* between the generator leads, T1, T2, T3 and wires numbered X101E8T1, X102C8T2 and X103G6T3 (EMU-10 Generator Sets) or wires numbered X101E8T1, X102C8T2 and X103G10T3 (EMU-11 Generator Sets).

c. *If inspection reveals* that these connections were not sleeved or that sleeving has frayed, perform corrective action as follows:

(1) Install a minimum of four inches of plastic sleeving, FSN 5970-235-2732CX or equal, over each individual connection and tie the ends of the sleeving with harness lacing.

PUBLISHED UNDER AUTHORITY OF THE SECRETARY OF THE AIR FORCE

17 DECEMBER 1974

SHORT TITLE: PERFORMANCE DATA

1. PURPOSE.

To provide aircrews with revised engine limits when operating on alternate grade fuel.

2. GENERAL.

The C-119L aircraft have engines installed with two different type exhaust pipes. On engines with exhaust pipe assembly P/N 434117 on cylinders number 4-5, 10-11 and 16-17 higher engine limits may be used without damage to the engine. On aircraft that have not been modified, lower limits must be used. The only way to identify what type is installed involves the removal of the exhaust pipe from the engine.

3. INSTRUCTIONS.

Until such time that it can be determined that exhaust pipe assembly P/N 434117 is installed on all R3350-89B 95W engines the data in this supplement will be used.
