# DATA ITEM DESCRIPTION

Form Approved
OMB No. 0704-0188

| 1. TITLE | 2. IDENTIFICATION NUMBER |
|---|---|
| English Language Test Design Document (ELTD) | DI-MISC-80751 |

3. DESCRIPTION/PURPOSE

3.1 The ELTD specifies test steps, sequence of tests and test parameters and contains preliminary and final design data for the interface hardware required.
3.2 The ELTD is used to fault isolate or verify proper operation of a particular item that is to be tested on automatic test equipment.

| 4. APPROVAL DATE (YYMMDD) | 5 OFFICE OF PRIMARY RESPONSIBILITY (OPR) | 6a DTIC APPLICABLE | 6b. GIDEP APPLICABLE |
|---|---|---|---|
| 890123 | A/AMC-MI | | |

7. APPLICATION/INTERRELATIONSHIP

7.1 This Data Item Description (DID) contains the format and content preparation instructions for the data product generated by the specific and discrete task requirement as delineated in the contract.

7.2 This DID supersedes DI-E-1130.

| 8. APPROVAL LIMITATION | 9a APPLICABLE FORMS | 9b. AMSC NUMBER |
|---|---|---|
| | | A4622 |

10 PREPARATION INSTRUCTIONS

10.1 Format. The ELTD shall be a bound document prepared in contractor selected format. Unless effective presentation would be degraded, the initially used format arrangement shall be used for all subsequent submissions.

10.1.1 Universal test equipment compiler (UTEC). For a test program prepared using the UTEC, all test steps or parameters shall be written in UTEC pseudo-english language rather than in machine language.

10.1.2 Assembly and static error inspection program. For a test program prepared using the assembly and static error inspection program, all test steps or parameters shall be written in UTEC pseudo-english language rather than in machine language.

10.2 Content. The ELTD shall contain the following:

10.2.1 Flow charts. Flow charts for testing shall depict all program steps. The actual message to appear as a print message shall be included.

Check the source to verify that this is the current version before use.

Block 10, Preparation Instructions (Continued)

10.2.2 Test adapter and patchboard requirements. Preliminary adapter and patchboard requirements shall be contained in the draft ELTD and the final ELTD shall contain the actual test adapter and patchboard requirements.

10.2.3 Technical manual data. Technical manual data shall contain test alignment and repair instructions for the item being tested.
