4.9, delete and substitute the following:

"4.9 Retention of qualification. To retain qualification, the contractor shall submit a summary of group A inspection and a certification of compliance at yearly intervals via the Government quality assurance representative. The summary of group A inspection shall indicate the number of inspection lots that passed and the number that failed (including the type and number of failures) together with corrective action to correct failures. The certification of compliance shall include verification that materials, processes, and quality control have not changed. Failure to submit the group A summary and certification of compliance shall result in loss of qualification. In the event that no production occurred during the 12-month reporting interval, a report shall be submitted certifying that the company still has the capabilities and facilities necessary to produce the item. If the item has not been produced for 36 months, the manfacturer may be required, at the discretion of the qualifying activity, to submit each type of switch for which qualification is sought to testing in accordance with the qualification inspection requirements."
