COMMERCIAL ITEM DESCRIPTION

MAILING CASE, LABORATORY SPECIMEN

The General Services Administration has authorized the use of this commercial item description.

This commercial item description covers a screw capped mailing case to be used in conjunction with NSN 6640-01-099-4066, Serum Tube, Shipping and Storing, and NSN 7690-00-082-9705, Label, Etiologic Agents - Biomedical Materiel.

Salient characteristics:

The mailing case shall be a screw capped, fiberboard mailing container suitable for shipping serum vials through the U.S. Postal System.

The screw cap shall be type SC Safety Edge conforming to Post Office Standard, Chapter 4, Section 433.2.

The case shall be waxed inside and have a crimped metal neck and seamed metal bottom. Nominal case dimensions shall be 3-1/8 inches inner diameter by 7-3/4 inches inner height.

The minimum wall thickness shall be 0.115 inches including a covering of 0.0045 Kraft.

The cap and case shall meet Federal standards for mailing liquids when absorbent packing is added.

Workmanship. The mailing case shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Package (PG). One package containing twelve cases with caps, as specified, constitutes one unit.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or purchase order, the contractor may use his own or any facilities suitable for the

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Records. Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after delivery of the supplies to which such records relate.

Inspection. Inspection, as used herein, is defined as both examination (such as visual or auditory investigation without the use of special laboratory appliances or procedures) and testing (determination by technical means of physical and chemical properties) of the item.

Inspections and Tests. Inspections and tests shall be conducted to determine compliance with specification requirements. Where feasible, the same sample shall be used for the determination of two or more test characteristics.

Sampling for inspections and tests. Sampling for inspection and tests shall be conducted in accordance with commercial practice. The unit of product for test purposes shall be one mailing case.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

The following National Stock Number is covered by this document:
