INTERIM COMMERCIAL ITEM DESCRIPTION

SPONGE-BRUSH, SURGICAL

The General Services Administration has authorized the use of this Interim Commercial Item Description which was developed by the Defense Personnel Support Center, Directorate of Medical Materiel, DPSC-ATT, 2800 South 20th Street, Philadelphia, PA 19101, based currently available technical information.

This Interim Commercial Item Description covers a Sponge-Brush, Surgical.

Salient Characteristics:

Shall be a disposable surgical brush-sponge with non-irritating bristles on foam sponge backing impregnated with 4% chlorhexidine gluconate detergent which shall be effective for cleansing and degerming the skin during scrub-up procedures.

Sponge shall contain as a minimum 20 ml of the detergent.

Shall be individually packaged with an enclosed nail cleaner and be ready to use.

Workmanship. The sponge-brush shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Package (PG). Shall be packaged 25 brush sponges in a dispenser box. One package containing 8 dispenser boxes (200 brush sponges), as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

AMSC/NA FSC 6510

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.
