COMMERCIAL ITEM DESCRIPTION

SUPPORT, KNEE

The General Services Administration has authorized the use of this commercial item description in preference to A-A-0051528(DM), dated 27 June 1986

This commercial item description covers two (2) sizes of a one-way stretch elastic, hinged knee support to provide stability to the muscles, tendons and ligaments of the injured or diseased knee.

Salient characteristics:

The knee supports shall be of the following sizes and circumference:

Size 1 - Medium - 13 to 14-3/4 inches (32.5 to 37.5 cm)
Size 2 - Large - 14-3/4 to 16-1/2 inches (37.5 to 41.9 cm)

The knee supports shall be fabricated of a surgical weight, one-way stretch elastic that provides circular compression to help reduce swelling. The fabric shall be knitted of 36 ga. cotton covered rubber yarn. A 50/2 mercerized cotton yarn and a 100/1 denier texturized polyester yarn shall be used to hold the covered rubber yarn in position. The edges of the fabric shall not fray or roll.

The knee supports shall have two hinged metal bars encased in leather casings on each side of the support. The casings shall be a good grade of chrome tanned leather. The hinges shall be longer on one side of the pivot joint for better stability. The hinges shall be fabricated of nickel plated brass that has been properly hardened and passivated. The hinged bars shall have a graphite washer for easy movement of the hinge.

The knee supports shall have a leather strap with a buckle at the top and bottom to help hinge stabilization.

Workmanship. The knee supports shall be free from defects which detract from their appearance or impair their serviceability.

AMSC N/A FSC 6515

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Unit. Each (EA). One knee support, as specified, constitutes one unit.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contact or purchase order, the contractor may use his own or any facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Records. Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after delivery of the supplies to which such records relate.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

NOTE: The following National Stock Numbers are covered by this document:

Size 1 - (Medium) - 6515-01-153-4958
Size 2 - (Large) - 6515-01-153-4956

Ordering data. Intermediate/exterior package quantities, labeling, and marking must be specified in the contract and/or order.
