COMMERCIAL ITEM DESCRIPTION

APRON, DENTAL (Plastic, Disposable)

The General Services Administration has authorized the use of this commercial item description in preference to Military Specification MIL-A-37049.

This commercial item description covers a disposable plastic apron suitable for use in protecting a patient's clothing during prosthodontic procedures.

Salient characteristics:

The apron shall be a disposable, plastic sheet suitable for the protection of a patient's uniform (clothing) from impression materials, softened waxes, and similar materials used during the performance of prosthodontic procedures upon dental patients. The apron shall be fabricated from seamless, flat, polyethylene film.

Dimensions.

Thickness.....	.00093 - .00170 inch
Length.....	36 ± 1 inches
Width.....	26 ± 1 inches

The thickness, length and width shall be uniform overall.

The apron shall be soft and shall not cling to the patient. The apron shall not be brittle. The apron color shall be translucent clear or transparent blue or white polyethylene film. The color shall be uniform throughout the apron. The aprons shall be furnished on a continuous "snapped-off" roll with perforations for easy tear-off of each apron. The roll shall easily fit in a standard household paper towel holder.

Workmanship. Apron shall be free of holes, tears or cuts in the body of the apron, foreign matter embedded in the plastic, or any defect which detracts from its appearance or impairs its serviceability.

Unit. Roll (RO). One roll containing one hundred aprons, as specified, constitutes one unit.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or purchase order, the contractor may use his own or any facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Records. Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after delivery of the supplies to which such records relate.

Inspection. Inspection, as used herein, is defined as both examination (such as visual or auditory investigation without the use of special laboratory appliances or procedures) and testing (determination by technical means of physical and chemical properties) of the item.

Sampling for inspection. Sampling for inspection shall be conducted in accordance with MIL-STD-105. Where feasible, the same sample shall be used for the determination of two or more inspection characteristics. The unit of product for inspection purposes shall be one roll of aprons, as specified. Unless otherwise specified, sampling for examination shall be conducted at inspection level II, AQL 2.5, and sampling for tests (when applicable) shall be conducted at inspection level S-1, AQL 1.0.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.
