Unit. Package (PG).

One package containing 84 tablets, as specified, constitutes one unit. Three 28-tablet cycles shall be packaged in a unit package similar to one of the following.

(a) Shall be packaged 84 tablets in a 3-cycle compact. The compact shall be constructed so that 28 tablets will be available for the first cycle, and then a selector lever will make the remaining tablets available 28 at a time for the next two cycles.

(b) Shall be packaged 28 tablets in a blister-type, rectangular package (disc) designed to fit into the plastic compact provided. Three of the rectangular packages (84 tablets) shall be packaged with one plastic compact.

(c) Shall be packaged 28 tablets in a blister-type, rectangular package (disc) designed to fit into the plastic compact provided. Three of the rectangular packages (84 tablets) shall be packaged with 3 plastic compacts.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurdisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.
