DATA ITEM DESCRIPTION

Title: Government Furnished Property Plan

Number: DI-ADMN-82527
AMSC Number: 10646
DTIC Applicable:
Preparing Activity: DC
Applicable Forms:

Approval Date:20260416
Limitation:
Applicable:
Project Number: ADMN-2026-002

Use/relationship: This report covers the property plan for contractors to submit Government Furnished Property.

Requirements:

This document applies to property furnished to and managed by the Contractor. Describe the Contractor's Property Management System (PMS) that will be used to monitor and track property. The PMS consists of electronic systems, written procedures or instructions and processes for functional outcome areas. Contractor shall address all ten Outcome Areas detailed in FAR 52.245-1, paragraphs b and f, and in accordance with DFARS 252.245-7003 and 252.245-7005.

The property plan will define roles and responsibilities, contractual requirements, industry leading practices (ILP), voluntary consensus standards (VCS), customary commercial practices, and continuous process improvement methods used in PMS.

Adjustments to corporate property plans specific to contract or delivery orders can be detailed in an appendix to standard plan.

1. **Reference documents:**

FAR 52.245-1 Government Property
DoD 252.242-7005 Contractor Business Systems
DoD 252.242-7004 Material Management and Accounting System
DoD 252.245-7003 Contractor Property Management System Administration
DoD 252.245-7005 Management and Reporting of Government Property

2. **Format.** (Government format). Report shall be in Microsoft Word 12 point font. A DISA template is available but not required.

3. **Content.** The property plan will define roles and responsibilities, contractual requirements, industry leading practices (ILP), voluntary consensus standards (VCS), customary commercial practices, and continuous process improvement methods utilized in the contractor's PMS.

3.1. Contract Number. The contract number.

Check the source to verify that this is the current version before use.

3.2. Major elements of the data to be delivered by the Contractor. Contractor shall address outcome areas detailed in FAR 52.245-1 paragraphs b and f:

1. Acquisition
2. Receiving
3. Records
4. Physical Inventory
5. Subcontractor Control
6. Reports
7. Relief of Stewardship
8. Utilization
9. Maintenance
10. Property Closeout

Contractor will detail the applicable outcome areas and describe frequency and performance of both physical inventories and independent self-assessment of their respective PMS.
