DATA ITEM DESCRIPTION

Title: FAILED ITEM ANALYSIS REPORT

Number: DI-SESS-82461
AMSC Number: N/A
DTIC Applicable: N/A
Preparing Activity: AS
Applicable Forms: N/A

Approval Date: 20250108
Limitation: N/A
GIDEP Applicable: None
Project Number: SESS-2025-008

Use/Relationship: The Failed Item Analysis report is to be prepared for each failed item which is contractually required to be analyzed. It presents the results of failure analysis, methods of analysis, failure histories and corrective action taken or recommended.

This DID contains the format, content, and intended use information for the data product resulting from the work task described in the contract Contractual Engineering Task (CET).

Requirements:

1. Reference Documents. The applicable issue of the documents cited herein, including their approval dates and dates of any applicable amendments, notices, and revisions, shall be as specified in the contract.

1.1. NAVAIRINST 5234.5B.

1.2. SWP4940-024.

2. Format. Contractor's format is acceptable.

3. Content. The following shall be included in the Failed Item Analysis report:

3.1. The Software Metrics Report shall include the following:

3.1.1. Date of failure.

3.1.2. Date of report.

3.1.3. Name of engineer responsible for failure analysis.

3.1.4. Nomenclature and generic number of failed items.

3.1.5. Type of test during which failure occurred.

3.1.6. Operational and environmental conditions under which failure occurred.

3.1.7. Description of failure systems by which failure was detected.

Check the source to verify that this is the current version before use.

3..1.8. Description of item's mode of failure.

3.1.9. Description of specific laboratory method employed in failure analysis (e.g., x-ray, spectrographic analysis, dissection).

3.1.10. Description of failure cause.

3.1.11. Impact, if any, of environmental conditions on the failure cause.

3.1.12. Description of specific analytical method employed in identifying failure causes.

3.1.13. Failure history to date of subject item.

3.1.14. Recommendation for corrective action.

3.1.15. Failure analysis number.

3.1.16. Manufacturer of failed part.

End of DI-SESS-82461
