INTERIM AMENDMENT

TO

FEDERAL SPECIFICATION

BLADE, HAND HACKSAW

AND

BLADE, POWER HACKSAW

This interim amendment was developed by the Standardization Division, Federal Supply Service, General Services Administration, Washington, D. C. 20406, based upon currently available technical information. It is recommended that Federal agencies use it in procurement and forward recommendations for changes to the preparing activity at the address shown above.

The General Services Administration has authorized the use of this interim amendment as a valid exception to Federal Specification GGG-B-451d, dated January 31, 1968.

PAGE 1

Under "Type I. Hand and Grade B. High-carbon or low-tungsten steel", add the following:

"Class 1. All hard.
Class 2. Flexible back".

PAGE 3

Renumber paragraph 3.7.2.1 to 3.7.2.2 and add the following paragraph:

"3.7.2.1 Class 1, all-hard. Class 1 all-hard blades shall be uniformly hardened throughout except at the ends."

FSC 5110, 3455
