MILITARY SPECIFICATION SHEET

ELECTRON TUBE, MICROWAVE, NEGATIVE GRID
TYPE 6442

This amendment forms a part of MIL-E-1/1055D, dated 19 March 1973, and is approved for use by all Departments and Agencies of the Department of Defense.

PAGE 3

* Method 1002, barometric pressure, reduced (1), conditions column: Delete "3,000 Vac" and substitute "2,000 Vac".

PAGE 5

Note 17, delete in its entirety and substitute:

"17. This test shall be performed during the initial production and once each succeeding 12-calendar month period in which there is production. A regular double sampling plan shall be used, with the first sample of three tubes having an acceptance number of zero, and a second sample of three tubes having a combined acceptance number of one. In the event of failure, the test shall be made as a part of quality conformance inspection, part 2, inspection level S3, with an AQL of 6.5. The regular "12 calendar month" double sampling plan shall be reinstated after three consecutive samples have been accepted."

* Note 18, delete in its entirety and substitute:

"18. The specified voltage shall be applied between anode and grid. No other voltages shall be applied. The TUT shall be excited under specified conditions at atmospheric pressure for 10 seconds minimum. There shall be no evidence of arc-over or instability as evidenced by significant variations observed in the waveform of the applied voltage. Should arcing occur during the 10-second period, the TUT shall subsequently operate for 60 seconds minimum without arcing. The pressure shall then be reduced to specified conditions and the TUT must operate for another 60 seconds minimum without visible arc-over."

The margins of this amendment are marked with an asterisk to indicate where changes (additions, modifications, corrections, deletions) from the previous amendment were made. This was done as a convenience only and the Government assumes no liability whatsoever for any inaccuracies in these notations. Bidders and contractors are cautioned to evaluate the requirements of this document based on the entire content irrespective of the marginal notations and relationship to the last previous amendment.

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.
