MILITARY STANDARD

AUTOMATED ENGINEERING
DOCUMENT PREPARATION SYSTEM

WAVEGUIDES

TO ALL HOLDERS OF DOD-STD-35-42A(MI):

1. THE FOLLOWING PAGES OF DOD-STD-35-42A(MI) HAVE BEEN REVISED AND SUPERSEDE THE PAGES LISTED.

NEW PAGE	DATE	SUPERSEDED PAGE	DATE
v	30 JUNE 1992	v	31 AUGUST 1987
1	31 AUGUST 1987	(Reprinted without change)	
2	30 JUNE 1992	2	31 AUGUST 1987
7	31 AUGUST 1987	(Reprinted without change)	
8	30 JUNE 1992	8	31 AUGUST 1987

2. RETAIN THIS NOTICE PAGE AND INSERT BEFORE THE TABLE OF CONTENTS.

3. Holders of DOD-STD-35-42A(MI) will verify that page changes and additions indicated above have been entered. The notice page will be retained as a check sheet. This issuance, together with appended pages is a separate publication. Each notice is to be retained by stocking points until the Military Standard is completely revised or canceled.

1. SCOPE

1.1 General. This dash-numbered part of the Automated Engineering Document Preparation System (AEDPS), provides detailed requirements for the preparation of Military Specification Exception (MSE) documentation for Waveguides.

1.2 Purpose. This military standard provides the necessary information to prepare a Specification Requirement Sheet (SRS) which will be used to generate an MSE by automated data processing.

1.3 Utilization. General instructions, quality assurance provisions, packaging, and notes, applicable to all AEDPS dash-numbered parts have been included in the basic document (DOD-STD-35) to avoid redundancy. Unless otherwise specified in this dash-numbered part, the following list contains additional subjects applicable to all AEDPS dash-numbered parts and included in DOD-STD-35:

a. Writing Methodology
b. Document and Part Numbering
c. Applicable Documents
d. Single and Multi-item Specifications (Tabulation)
e. Keyword Code Index (KCI)
f. General Requirements of AEDPS

1.4 Military Specification Exception Title Index. The title code for an MSE shall be selected from one of the MSE titles listed in the Title Index (see table I). Data bases have been extablished for the generation of MSE°s for the MSE titles indicated. If a suitable title code is not contained in the Title Index, leave the title code spaces on the SRS blank, and attach a request for the assignment of a title code. Include in the request the desired title and the base document identifier. A code will be assigned and the code, title, and base document will be made a part of the Title Index.

One of the six-digit codes listed in the Title Index and entered on a SRS, specifies that the title of the MSE will be the title shown in the Title Index.

Each MSE title, listed in the Title Index, is compatible with the document(s) listed with that title under base document. The list of base documents may or may not be a complete listing. The information shown under coverage is intended for the user°s reference. When more than one document is listed for an MSE title, this information will be useful in determining which of the documents is most suitable for use as the base document.

Source: https://assist.dla.mil -- Downloaded: 2026-10-23T20:56Z
Check the source to verify that this is the current version before use.

The MSE title may or may not be the same as the title used in DODISS, FIIG, or the base document. In general, the MSE title uses the basic federal item name listed in Cataloging Handbook H6. However, titles with additional modifying and identifying words are provided to assist in defining the scope of the MSE. Also, less restrictive titles are provided to prevent exclusion of items.

TABLE I. TITLE INDEX

MSE TITLE	TITLE CODE	BASE DOCUMENT NUMBER	BASE DOCUMENT COVERAGE
WAVEGUIDE ASSEMBLY	090006	MIL-W-25913	FLEXIBLE AND RIGID
WAVEGUIDE ASSEMBLY FLEXIBLE	090001	MIL-W-287	FLEXIBLE
WAVEGUIDE ASSEMBLY RIGID	090002	MIL-W-3970	RIGID
WAVEGUIDES	090007	MIL-W-85	RECTANGULAR RIGID
		MIL-W-23351	SINGLE AND DBL RIDGE, RIGID
		MIL-W-28839	ELLIPTICAL, FLEXIBLE AND SEMIRIGID

5. DETAILED REQUIREMENTS

5.1 Introduction. This section provides instructions for completion of the SRS and references for instructions on specific requirements contained in DOD-STD-35.

5.2 MSE formats. AEDPS has the capability to prepare a six-section or a single-section document. The six-section document appears similar to a six-section military specification. The single-section document appears similar to a military specification sheet. Specification requirements described in DOD-STD-35 are applicable to either of the formats selected. It is mandatory that one of the two following codes and an "X" be entered on the SRS to create the desired MSE format:

a. 0700 for a six-section format

b. 0800 for a single-section format

5.3 Referenced documents. Section 2 of the MSE may contain a list of all referenced documents within Sections 3, 4, and 5 of the MSE. Instructions for referencing documents to appear in Section 2 of the forthcoming MSE are contained in DOD-STD-35.
