MILITARY SPECIFICATION

COLLECTIVE PROTECTION EQUIPMENT, CBR,

BATTERY CONTROL CENTRAL, M10

1. SCOPE

1.1 This specification covers collective protective equipment consisting of a Filter Unit, M18 and Protective Entrance, M7 for the Hawk Guided Missile System.

2. APPLICABLE DOCUMENTS

2.1 The following documents of the issue in effect on the date of invitation for bids or request for proposal form a part of this specification to the extent specified herein:

STANDARDS

MILITARY

MIL-STD-129	- Marking for Shipment and Storage.

DRAWINGS

US ARMY MUNITIONS COMMAND

DL5-19-3075	- Collective Protection Equipment, CBR, Battery Control Central, Hawk, M10.
D150-2-1	- Marking Diagram for Shipping Containers.

(Copies of specifications, standards, drawings, and publications required by suppliers in connection with specific procurement functions should be obtained from the procuring activity or as directed by the contracting officer.)

3. REQUIREMENTS

3.1 Components. The components comprising the collective protective equipment shall conform to the specifications and drawings listed on Drawing DL5-19-3075 and subsidiary drawings.

4. QUALITY ASSURANCE PROVISIONS

4.1 Responsibility for inspection.

4.1 Supplier's responsibility. Unless otherwise specified in the contract or purchase order, the supplier is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or order, the supplier may utilize his own or any other facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

4.2 Component inspection. Each component shall have been inspected and tested in accordance with its component specification. (See 6.3.)

5. PREPARATION FOR DELIVERY

5.1 Packaging and packing. Each component shall be packaged and packed in accordance with its component specification. (See 6.3.)

5.2 Marking. In addition to the required markings specified in the filter unit specification and the protective entrance specification, the shipping containers for those items shall be marked in accordance with the set or assembly marking requirements of MIL-STD-129 and D150-2-1.

6. NOTES

6.1 Intended use. The collective protection equipment covered by this specification is intended to provide respirable air for personnel working in the control center of the Hawk guided missile system. It also furnishes an entrance whereby personnel can enter and leave the control center without admitting contaminated air.

6.2 Ordering data. Procurement documents should specify the title, number, and date of this specification.

6.3 Component specification. The component specifications for the collective protection equipment are:

Title	Number
Filter Unit, Gas-Particulate, Missile Van, EMD, 300 CFM, M18	MIL-F-51220(MU)
Filter, Gas, 150 CFM, M23	MIL-F-51222(MU)
Filter, Particulate, 150 CFM, M24	MIL-F-51221(MU)
Fan, Vaneaxial, 300 CFM, 400 cycle, 416 volts 0.7 HP	MIL-F-51228(MU)
Protective Entrance, Missile Van, Collapsible, M7	MIL-P-51223(MU)

6.4 Supersession data. This specification supersedes Chemical Corps Purchase Description No. 197-54-789A, dated 2 April 1962.
