GENERAL SPECIFICATION FOR

This list has been prepared for use by or for the Government in the procurement of products covered by Specifications MIL-C-49059. Listing of a product is not intended to and does not connote indorsement of the product by the Department of Defense. All products listed herein have been qualified under the requirements for the product as specified in the latest effective issue of the applicable specification. This list is subject to change without notice. Revision or amendment of this list will be issued as necessary. The listing of a product does not release the supplier from compliance with the specification requirements.

THE ACITVITY RESPONSIBLE FOR THIS QUALIFIED PRODUCTS LIST IS THE U. S. ARMY COMMUNICATIONS RESEARCH AND DEVELOPMENT COMMAND (CORADCOM). The Defense Electronics Supply Center (DESC-EQ) has been designated as agent for the establishment and maintenance of this QPL.

NOTE: When the military specification requires qualification and there are no products listed or approved for listing on the QPL or when suppliers of those products on the QPL are nonresponsive to an IFB, the qualification requirement of paragraph 3.2 of MIL-C-49059 may be waived for procurement of Cable, Electrical (Flexible, Flat, Unshielded, Flat Conductor), only by the Preparing Activity. When qualification is waived, procuring activities shall invoke first article inspection. First article inspection shall consist of performing all qualification tests. The sample size and allowable defects shall be in accordance with the military specification and MIL-C-49059 qualification sampling and acceptance criteria. A copy of the test data shall be forwarded to the qualifying activity.
